

SEROB KHURSHUDYAN

Senior Full-Stack Engineer (Node.js / React) | Toptal-vetted Developer

ABOUT ME

Senior Full-Stack Engineer with experience building high-load applications, real-time systems, and scalable SaaS products. Specialized in React, Next.js, Node.js, TypeScript, and modern backend architecture for production-grade systems used by 1M+ users.

WORK EXPERIENCE

Senior Full-Stack Developer – Toptal (Freelance)

01/2026 - Present

Toptal-vetted Senior Full-Stack Developer selected through a rigorous multi-stage screening process. Delivered production-grade features for international clients using React, Next.js, and Node.js. Focused on scalable architecture, performance, and reliability.

Full-Stack Developer- Appsgeyser

01/2024 - Present

Worked on a high-load web platform serving 1M+ monthly users. Delivered performance improvements using SSR/ISR, caching layers, and SQL tuning. Refactored legacy code into modular architecture and built Node.js backend services. Owned features end-to-end from development to production.

Senior Front-End Developer -SDH-it

06/2025 - 12/2026

Built and maintained scalable React applications for international clients. Improved performance and Core Web Vitals through component refactoring and render optimization. Implemented reusable architecture using custom hooks and Context API. Collaborated with backend teams on API integration.

Full-Stack Developer-Gauge Automotive

09/2022 - 08/2023

Developed frontend features for an automotive car auction and bidding platform. Built React interfaces for auctions, listings, and real-time updates. Improved UI performance and state management, collaborating with backend teams on API integration.
